**CT ENTEROGRAPHY:**

Your physician has scheduled you for a CT Enterography Procedure (CT Scan of the Abdomen and Pelvis study), which requires you to drink Volumen, a low concentration of barium starting 1 hour prior to your procedure. The Imaging staff will provide 3-450ml Bottles of VOLUMEN to you with the instructions listed below.

CT Enterography Appointment Time: \_\_\_\_\_

\_\_\_\_\_ (1 hour before appointment) drink 450ml of Volumen (1-bottle).

\_\_\_\_\_ (50 minutes before appointment) drink 450ml of Volumen (2-bottle).

(Finish the second bottle by \_\_\_\_\_ 40 minutes before your appointment).

\_\_\_\_\_ (20 minutes before your appointment) drink 225ml of the third bottle.

\_\_\_\_\_ (10 minutes before your appointment) finish the third bottle.

**Note: An IV injection will be given during the procedure therefore; we will need you to bring a list of all medications you are currently taking to your appointment.**

**If you are diabetic and taking the following medication, please notify us immediately. For some exams you must be off your medication for 48 hours after the exam.**

**Glucophage (Metformin)**

**Metaglip (Glipizide/Metformin)**

**Glucovance (Glyburide/Metformin)**

**Avandamet (Rosiglitazone/Metformin)**
