Tallon	(31 01 .	IMPC		RMATION		0101] 109 [] 11/4	
[]	Please stop taking your metformin-containing medication for the next 48 hours. You may begin taking your metformin-containing medication (Glucophage, Fortamet, Glumetza, Riomet; or combination drugs - Glucovance, Metaglip, ActoPlusMet, Prandimet, Avandamet, Janumet, Kombiglyze) again after 48 hours. Note: look for "metformin" on the label as many of these drugs are available in generic versions.							
[]	If you have any questions, please contact your primary care physician.
